PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, expected 2027) with hands-on experience building full-stack MERN applications, Gemini API integrations and IoT systems. Vice President of the Cybersecurity Club, leading a team of 18+ members and organizing CTF competitions and workshops for 150+ students.

EDUCATION

Sanjivani College of Engineering (SCOE) <i>Bachelor of Technology (B.Tech), Computer Science and Engineering CGPA: 7.8/10</i>	Kopargaon, Maharashtra <i>Expected Graduation: 2027</i>
Rajiv Gandhi Senior College <i>12th Standard (HSC), Science (PCM) Maharashtra State Board: 74%</i>	Maharashtra
Padmashri Shankar Babu Apengaokar English School <i>10th Standard (SSC) Maharashtra State Board: 85%</i>	Maharashtra

EXPERIENCE

Persevex <i>AI/ML Engineer Intern</i>	<i>3 Months</i>
- Developed and optimized machine learning models for data-driven applications to improve system accuracy. - Collaborated with the engineering team to integrate artificial intelligence capabilities into existing platforms.	
Unprof.Ai <i>AI Intern</i>	<i>1 Month</i>
- Assisted in the research, testing, and implementation of core artificial intelligence features and prompt engineering workflows. - Evaluated Large Language Model (LLM) integrations to enhance the reliability and quality of automated responses.	

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, SQL
Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, MERN Stack
Databases: MongoDB, MySQL, Supabase
IoT and Embedded: ESP32, ESP8266, Raspberry Pi, Sensor Integration
AI and Data: Google Gemini API, Microsoft Power BI, Microsoft Excel, Data Visualization
Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Cybersecurity (CTF), Agile Development
Tools and Platforms: Git, GitHub, Google Workspace

PROJECTS

Nexus AI MERN Stack, Google Gemini API - Built an AI-powered web application that converts text prompts into detailed visual architectures using the Google Gemini API, reducing manual charting time. - Designed a clean, responsive React interface that streamlines the prompt-to-visualization workflow.
Medi-4-U (Medicine Redistribution Platform) HTML, CSS, JavaScript, Supabase - Developed a platform connecting donors, NGOs and beneficiaries, supporting the management of 100+ medicine listings. - Implemented secure role-based authentication with Supabase to protect data and transactions across distinct user types. - Built a real-time inventory and order management dashboard with automated inventory updates, reducing manual tracking effort.
AquaGuard (Hostel Wastewater Management System) IoT, ESP8266, YF-S201 Flow Sensor - Designed an IoT-based wastewater management system for a hostel using an ESP8266 microcontroller and a YF-S201 flow sensor to measure water flow. - Documented the system design, components and working in a detailed project report.
Smart Walking Stick for the Visually Impaired Raspberry Pi 4, ESP32, YOLOv8 Nano, OCR - Designed a hybrid architecture: Raspberry Pi 4 for camera-based object detection (YOLOv8 Nano), OCR and voice output; ESP32 for ultrasonic and ToF obstacle sensing, vibration alerts, GPS and GSM. - Authored a literature review on assistive navigation technology for visually impaired users.
Dental Clinic Website (Freelance Client Project) Web Development Developing a website for Centre For Advance Dentistry with clinic information, online appointment booking, patient success stories and a contact page.

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

Vice President, Cyber Security Club (CSC) <i>Sanjivani College of Engineering</i>	2023 – Present
Organize cybersecurity workshops, awareness events and Capture The Flag (CTF) competitions attended by 150+ students; CTF rounds covered hashing, steganography and web exploitation.	

- Manage an Executive Council of 18+ members, overseeing event logistics and formal institutional communication, including budget sanction requests.

Lead Anchor, SARC and EDC

2023 – Present

Student Alumni Relations Cell and Entrepreneur Development Cell, SCOE

- Serve as principal anchor for institutional events with 300+ attendees, demonstrating public speaking and audience engagement.
- Foster student–alumni networks and promote an entrepreneurial culture across the campus.

VIRTUAL EXPERIENCE AND JOB SIMULATIONS

Deloitte – Data Analytics Virtual Experience (Forage)

Remote

1 Week

- Extracted and cleansed raw datasets to uncover actionable business insights.
- Created data visualizations to communicate strategic recommendations for decision-making.

JPMorgan Chase & Co. – Quantitative Research Virtual Experience (Forage)

Remote

1 Week

- Applied mathematical modeling and quantitative analysis to evaluate financial datasets and market trends.
- Analyzed quantitative trading strategies using data-driven financial methodologies.

ACHIEVEMENTS AND CERTIFICATIONS

- **8th Rank (National Top 10)** – HackIndia Spark-12 Hackathon (out of 100+ participants)
- **1st Prize** – Brains and Bots Presentation Competition, Sanjivani College of Engineering
- **HackerRank:** 5-star rating in SQL, Java, Python, C++ and Problem Solving
- **Certifications:** Introduction to C++ (SkillUp via Simplilearn); Gemini for Google Workspace (Google Cloud and Simplilearn); Power BI Data Visualization (OfficeMaster); C Programming (Digitize IT Station)
- **Other:** NPTEL Employment Communication – 70%; EF SET English Proficiency – B2 level
